

New York Stock Market

New York, June 25.—In practically every essential feature to-day's stock market repeated yesterday's performance, with the exception that the movement was duller and the under-lying more heavily. Lower prices were registered in the morning, after which some slight hardening was observed, but the outcome was relatively unimportant. Less attention was devoted to politics and more to crops and general trade conditions. Continued unsettled weather in the Northwest is benefiting crop growth in that section, and the railroads are making ready to move the expected heavy tonnage. Copper shares were once more under pressure on the reason of the highly speculative conditions now prevailing in the metal trade here and abroad.

The Southern Railway made a net gain in earnings for May of \$50,000, according to a report submitted.

Announcement was made after the close of the market that the directors of the regular quarterly dividend on Anaconda Copper. It was generally expected that an extra dividend or increased dividend might be made.

Features of the bond division were the strength of Norfolk and Western convertibles and Wabash refunding 4's. The movement otherwise was irregular. Total sales, par value, were \$2,644,000. United States government bonds were unchanged on call.
